

Matchstix™

Remote Phosphor

Imagine a small, simple, color-accurate light source designed for image capture with the versatility of power and mounting options to go anywhere you need it.

Cineo Lighting and Litegear™ have teamed up to develop the Matchstix series of small, versatile Remote Phosphor light sources. Matchstix operate from any DC power source from 11.5 to 16 VDC, including many battery options. Connection uses standard co-ax DC power connectors. Matchstix are optimized for flawless, flicker-free control with Cineo Inline Dimmers or DMX. Only 35mm wide, Matchstix are available in 3", 6" and 12" lengths and are surprisingly bright for their size. With interchangeable Remote Phosphor panels available in all Cineo color temperatures, their color quality perfectly matches all other Cineo soft lights. The back side of all Matchstix includes a standard cold-shoe slot for limitless mounting options virtually anywhere.

A few examples where Matchstix are the ideal small lighting source:

- Inconspicuous uplighting for TV newsdesks
- Perfect for teleprompters and steadycam use
- Lighting for shooting automobile interiors
- Perfect for tabletop photography

Ruggedly built from anodized aluminum, these small sources can easily withstand the most demanding applications. It's what you expect from Cineo.
